

# BELL HOUSING AND COUPLING SELECTION

## Cat Pumps Bell Housing and Coupling Products

Cat Pumps bell housings and couplings offer a simple and efficient solution for connecting your pump to an electric motor. Using a conventional drive coupling for transmission this method of assembly offers the user a compact pumping system. Our standard range will fit 90 to 160 frame motors with ATEX option available. Take advantage of the convenience of direct-drive pumps with a prompt delivery from Cat Pumps.

### Features and Benefits

- Pump mounts directly onto motor, eliminating the need for drive belts, guards and baseplate
- Fits to standard metric motors with B34 C-D in foot & flange face
- Prevents contact with moving parts, improving personal safety
- Compact design reduces installation space
- Simple self-alignment minimises side-loading on pump and motor shaft, extending bearing life
- Special finger-type coupling designed for extended life; tolerates higher temperatures and high running speeds
- All fixing screws included

### Applications

- Pressure Washers
- Self-Serve Car Wash
- Car Wash Prep Units
- Washdown Systems
- Salt Water Desalination/SWRO
- Misting/Cooling/Fogging Systems
- Industrial High-Pressure Power Units

## Motor pump combinations using 50Hz 4 pole
