ENVIRONMENTAL POLICY STATEMENT

To our Customers, Suppliers, Employees and all those who have an interest in the operation of our business.

Cat Pumps (UK) Limited supplies High Pressure Pumps to varied industry sectors. What sets us apart is our commitment to excellent product quality and high levels of customer service. Consistent with this is our responsible attitude to the environment in which we all live and work. We aim to minimise the impact of our operations on the environment in the interests of sustainability and quality of life. Following our guiding principles we will:

- Supply reliable products with long service life and make spare parts readily available to maximise operating time before replacement.
- Manufacture efficient products with low overall energy consumption.
- Offer good technical advice, ensuring the products we supply are well suited to their intended use and thereby controlling leakage of potentially hazardous liquids.
- Strive to procure components, materials and services in a way that minimises harm to the environment, and from suppliers who share our concerns.
- Reduce waste by recycling scrap metals, lubricants, chemicals, paper and packing materials wherever possible.
- Dispose of all unavoidable waste responsibly, meeting or exceeding all relevant environmental legislation including WEEE and RoHS.
- Deal with our employees, business neighbours and the local community in a responsible and ethical way with consideration for their health & wellbeing.
- Train our employees to respect and adhere to this policy.
- Regularly review our policies and procedures and continually improve our methods.

Mark Austin

General Manager
